IDA IRP LOAN PROGRAM

Loan Review Criteria

The IDA IRP Loan Program is designed to accomplish certain specific goals and objectives in order to enhance the County's overall economic well-being and to foster the creation and retention of job opportunities for the County's citizens. The IDA will attempt to ascertain to what extent each of the projects proposed for funding meet the following criteria:

GOALS AND OBJECTIVES

The primary goals and objectives of the Program are:

- (1) To create new employment opportunities through the expansion of existing or the creation of new businesses;
- (2) To retain existing employment opportunities;
- (3) To increase the County's tax base;
- (4) To help diversify the County's economic base;
- (5) To provide essential services or businesses generally lacking in the County;
- (6) To help leverage private and Non-Federal public funds;
- (7) To make available funding for the working capital, machinery/equipment and renovations needs of new or existing businesses; and
- (8) To improve the quality of life in Oswego County.

Projects will be funded on a first come-first served basis. The Program's parameters for funding will be at the discretion of the IDA, however, in general will be the lesser of 50% of total project cost or \$100,000. Funding participation will be subject to the availability of funds at the time of the loan review. Under special and unique circumstances, the Agency may consider in accordance with USDA guidelines, a loan up to \$250,000.

CREDIT WORTHINESS

The applicant must be current on real property taxes, all mortgage payments, federal and state tax obligations and all other debts. Revolving loans (i.e., credit cards) must be a manageable size and be receiving sufficient payments. The borrower must be free from any unsatisfied judgments or other claims which interfere with the lender's rights in the collateral.

Non-compliance with any of the above will be considered an appropriate reason for loan refusal. The applicant will, however, have the opportunity to correct any of the above problems. Substantial non-compliance, however, will show a lack of credit worthiness and could be deemed a reason for loan refusal.

PROJECT FEASIBILITY / BUSINESS PLAN

The applicant must provide information to the IDA concerning the feasibility of the project as well as its business plan. The feasibility of all areas of the project will be examined to include, but not to be limited to, the following: income projections, profit projections, and job projections. Questions with regard to the feasibility of a project will be considered an appropriate reason for loan refusal. Assistance to the applicant in developing a business plan and a feasible project will be provided or coordinated with the Small Business Development Center at SUNY Oswego.

JOB OPPORTUNITIES

The loan applicant is encouraged to provide, to the greatest extent possible, opportunities for employment to lower income residents of the County and contracts for work to be performed with loan proceeds by businesses or persons which are located in the County.

ELIGIBLE USE OF LOAN PROCEEDS

In terms of priority, as identified by the IDA, IRP loan proceeds may be used for the following: (1) purchase of machinery and equipment; (2) renovations; (3) inventory; (4) soft costs; (5) start-up costs; and (6) working capital. Loan proceeds for the refinancing of existing debt is prohibited. In general, the loan shall not exceed 50% of total project cost or \$100,000 whichever is less.

In order to maximize the economic impact of the financing available, the following types of projects are eligible for assistance under the IDA IRP Loan Program:

- (1) Manufacturing Facilities;
- (2) Warehousing and Distribution Facilities;
- (3) Research and Development Facilities;
- (4) Service and Support businesses deemed essential for (1), (2), and (3);
- (5) Tourism related service businesses that are essential to the County's overall tourism development programs; and
- (6) Other economic development related projects deemed essential and necessary for the County's economic well-being.

INELIGIBLE USES OF LOAN PROCEEDS

- (1) Housing projects;**
- (2) Race tracks, golf courses;**
- (3) Lending, Investment, and Insurance companies**
- (4) Projects involving legalized gambling activities;**
- (5) Any other types of projects determined ineligible by the USDA**

SECURITY

All loans will be secured. Security will be in real property, assets of a business and/or assets of the business owners or corporate officers. Additionally, loans will be secured by the equipment or materials purchased with the loan proceeds. Security in the form of account receivables may, in some instances, be used as collateral as well. The loan can be secured in a subordinate position, if required by the bank or other lender that is the primary lender. The IDA will determine what shall serve as collateral on each loan. Personal guarantees are normally required from all principals that own 20% or more of the business and, may subject to underwriting, be required from the spouses of the principals.

PROOF OF FINANCIAL COMMITMENT

In reviewing the applicant's request, the IDA will address the availability of firm financial commitments for the non-IDA IRP Loan Program portion of the project. Applicants should bear in mind that all loans are contingent upon the nature and degree of the firm financial commitment from the non-IDA IRP Loan Program funding sources. Funding for the non-IDA IRP Loan Program portion can be in the form of: (1) bank financing, (2) other private financing, (3) equity and/or (4) public financing other than the requested loan. At least 50% of Project Cost must be from "Non-Federal Sources." Applicants will be required to provide information on the financing commitment of the non-IDA IRP Loan Program portion of the project, including source, dollar amount, rate, term, annual payment and collateral.

TERMS AND CONDITIONS

The term of the loan shall, in general, be in accordance with the following schedule:

<u>Use of Loan Proceeds</u>	<u>Amortization (yrs.)</u>
Purchase Machinery and Equipment	5 to 10
Renovations	5 to 10
Inventory	3 to 5
Soft Costs	3 to 5
Start-Up Costs	3 to 5
Working Capital	3 to 5

The IDA may increase the term of the loan under unusual conditions, and the applicant may pre-pay the loan without penalty.

Interest rates will be fixed for the term of the loan. The rate of interest will be between 3 – 6% based on credit worthiness. Repayment, principal and interest, will be on monthly installments and will be made directly to the County of Oswego Industrial Development Agency.

In cases where a draw-down procedure is required, for example - a machinery and equipment loan is approved and the firm acquires the equipment over a period of 3 to 6 months, interest will accrue upon the draw-down portion and is due prior to any subsequent draw-downs. Upon completion of the final draw-down, the entire principal amount will then be amortized per the loan documents.

Each loan's terms and conditions will be reviewed to insure an adequate return on investment is possible and that sufficient cash flow is available to permit the project to be successful. Consequently, the IDA will retain a certain degree of flexibility and may deviate from the guidelines outlined when circumstances merit it.

Loans of \$100,000 or more will require a public hearing to be held in the municipality where the project is located. Loans will also require approval by USDA.

NEED

All projects must demonstrate a need for financing. The loans can serve as “gap” or “subsidy” financing. “Gap” loans are defined as those which provide funds which are needed to complete a total project which would otherwise not be available from other sources.

“Subsidy” financing is defined in the following context: Although sufficient funds are available from other sources, the cost of these funds are at a level as to render the total project financially unfeasible. Therefore, the IDA Loan Program funds including the IRP are required for a lower total project funding rate.
